**Invitation to the third ESWIRP - Trans National Access opportunity – Workshop:
11 to 12 October 2011 at Zwolle, the Netherlands**

Dear Colleagues

Most of you already know ESWIRP, the European Strategic Wind tunnels Improved Research Potential project. Founded by the EU, it provides a budget to open the three strategic facilities ETW, S1-Modane and DNW-LLF to the European research community. It therefore presents a unique opportunity to universities and research institutes as well as the industry to perform EU funded research tests in high scale and performance wind tunnels.

During the first ESWIRP workshop at Cologne in November 2010 every participant had the possibility to present his experiment idea and to get in contact with potential cooperation partners. At the second workshop at Bardonecchia in March 2011 the projects were consolidated and consortia were formed.

We would now like to invite you to the third and last ESWIRP workshop that will take place on 11 th and 12 th October 2011 at Zwolle near the site of the LLF in Marknesse, the Netherlands.

At this third workshop both ESWIRP expert team members and wind tunnel experts will attend to assist you in preparing the call for proposal. Please note that all projects to be presented at the third ESWIRP workshop should be ready to meet the ESWIRP requirements and to be transformed into a "Call for Proposal". In case you are interested to present an accordingly advanced project or to join one of the already running projects, please visit www.eswirp.eu for further information about project topics and teams as well as ESWIRP guidelines. If you are in doubt whether you fulfil the ESWIRP qualifications, please do not hesitate to contact the ESWIRP coordinator Guy Boyet (guy.boyet@onera.fr, Tel. +33 (1) 80 38 69 22).

Final proposals can be submitted from October to December 2011. In January and February 2012 the independant team of experts from Academia, Research and Industry will review the proposals and mark them against a certain set of criteria (listed at www.eswirp.eu). The selected projects will schedule and implement their actual testing activities from March 2012 to July 2013. All tests should be processed by September 2013.

Third ESWIRP workshop organisation

The third ESWIRP workshop will take place at Grand Hotel Wientjes in Zwolle on 11 and 12 October 2011 and will include a visit to the DNW-LLF in Marknesse. The registration deadline is on the 9th September 2011.

European Strategic Windtunnels
Improved Research Potential

To register please fill in the following registration form and send it the Workshop Secretary till 09 September 2011. If you are planning to present a paper, please be prepared to submit an abstract till 23 September 2011.

You will receive detailed organizational information after your registration.

If you need assistance to register, please contact the Workshop Secretary:

Gerhild JUNG

Fax: +49 (2203) 609-124

E-Mail : GJU@etw.de

We are looking forward to welcoming you at the third ESWIRP workshop!

Yours sincerely

Guy Boyet

ESWIRP Coordinator

ONERA GMT Deputy Director

Jürgen Quest

ESWIRP WP3
"Transnational Access" Leader

ETW Chief Aerodynamicist

Sinus Hegen

DNW wind tunnel expert

DNW Head Project Aerodynamics

European Strategic Windtunnels
Improved Research Potential

3rd ESWIRP Trans National Access Opportunity Workshop

11 and 12 October 2011
Zwolle/Marknesse, the Netherlands
Registration deadline: 09 September 2011

Registration Form

Please type or print in block letters. Only one participant per form.

Name First Name

Title

Nationality

University or Company:

Address:

Postal code and City:

Country:

Telephone: +..... (.....)

Telefax: +..... (.....)

E-mail:

I will participate to the workshop: Yes No

I will present my project: Yes No

Title of the presentation:
